1. Overview of operating results and others

(1) Overview of operating results for the first nine months

In the first nine months of the fiscal year ending December 31, 2024, the Japanese economy showed a moderate trend of recovery, supported by a continuation of robust inbound tourism demand and the expansion of construction demand for infrastructure and other projects. The economy is expected to progress steadily in the future as a result of corporate capital investment. However, elements of concern remain, such as accelerating inflation, due to the rising cost of logistics, etc., the accompanying weakening of personal consumption and ongoing international tensions, the future remains uncertain.

Under such business conditions, in the first nine months under review, net sales was \$22,177 million, down \$102 million or 0.5% year on year, operating profit was \$2,680 million, down \$967 million or 26.5% year on year, ordinary profit was \$2,609 million, down \$1,247 million or 32.3% year on year, and profit attributable to owners of parent was \$1,696 million, down \$829 million or 32.8% year on year.

During the first nine months under review, the Company has been actively investing in research and development, which has led to a year-on-year increase in research and development expenses. As a result, selling, general and administrative expenses came to \forall 8,165 million, up \forall 869 million or 11.9% year on year.

The Group has a single business segment, the AgriTechno Business. The operating results by business fields in this segment are as follows.

In the agrichemicals field in Japan, the Group maintained steady sales results for a variety of products including the Company's mainstay pest control materials *Orion* and *Hachi-Hachi*, and our green agrochemicals (Note 1) *Suffoil* and *Toarrow*, which are the Company's focus.

However, sales of the pest control materials *Oncol*, *Cyflumetofen*, *Kaligreen* and others declined year on year. In the overseas markets, the pest control material *Gatten* maintained favorable sales, while green agrochemicals such as *Kaligreen performed well*. Meanwhile, sales of Cyflumetofen declined year on year but has nonetheless maintained smooth performance since June. As a result, net sales in the agrichemicals field amounted to ¥8,360 million, down ¥1,304 million or 13.5% year on year.

In the fertilizer and biostimulant field in Japan, we saw continued sales of the biostimulants^(Note 2). This included *Potetoru*, as well as *Lidavital*, *Algamix*, and *Fullbody*, which are products of our affiliate LIDA Plant Research, S.L. However, sales for greenhouse fertilizers, drip-fertigation fertilizers and others fell year on year, in part due to the impact of surplus inventories in the supply chain during the first six months. In the overseas markets, the mainstay product *Atonik* drove sales. At Blue Wave Holding B.V., an affiliate in the Netherlands, in addition to sales to North and South America, sales to South-East Asia also grew year on year. As a result, net sales in the fertilizer and biostimulant field and other fields increased by \mathbb{\fomath}1,201 million, or 9.5% year on year, to \mathbb{\fomath}13,817 million.

We are pressing forward with "Aggressive Investments for Further Growth," as mentioned in our "New Mid-Term Business Plan [2024-2026]," announced in February 2024. We are confident that by realizing our management philosophy of "We contribute to the people in the world with our agritechnology and sincerity," we will solve various challenges faced by global agriculture and contribute to achieving the SDGs. By actively investing in research and development, in which we aim to find the best balance of environmental consideration and stable food supply, we aim to contribute to the advancement of agriculture from a technological and sincere perspective, thereby enhancing our corporate value.

- (Note 1) Green agrochemicals: Safe and environmentally-friendly plant protection materials that provide peace of mind and can be used without any restriction on frequency, such as agents with agrochemical registrations derived naturally or from food additives, and organic JAS-compliant agrochemicals.
- (Note 2) Biostimulant: General name for the materials and technologies that enhance the immune strength inherent in plants, and promote cold resistance, heat resistance, pest tolerance and growth stimulation.

(2) Overview of financial position for the first nine months

Total assets as of September 30, 2024, was ¥33,996 million, a decrease of ¥3 million compared to December 31, 2023. This was mainly the result of an increase of ¥634 million in cash and deposits, a

decrease of ¥330 million in accounts receivable - trade, an increase of ¥581 million in work in process, a decrease of ¥456 million in merchandise and finished goods, and a decrease of ¥445 million in goodwill.

Total liabilities was \(\frac{\pmathbf{1}}{17,720}\) million, a decrease of \(\frac{\pmathbf{1}}{1,406}\) million compared to December 31, 2023. This was mainly the result of a decrease of \(\frac{\pmathbf{2}}{360}\) million in income taxes payable, a decrease of \(\frac{\pmathbf{4}}{452}\) million in notes and accounts payable - trade, a decrease of \(\frac{\pmathbf{2}}{877}\) million in short-term borrowings, and an increase of \(\frac{\pmathbf{3}}{346}\) million in long-term borrowings.

Net assets was \$16,275 million, an increase of \$1,402 million compared to December 31, 2023. This was mainly the result of the recording of \$1,696 million in profit attributable to owners of parent, \$565 million in payment of dividends of surplus, and an increase of \$102 million in foreign currency translation adjustment.

(3) Information regarding consolidated earnings forecasts and other forward-looking statements

There is no change to the consolidated earnings forecasts for the fiscal year ending December 31, 2024 announced in "Consolidated Financial Results for the Fiscal Year Ended December 31, 2023" on February 13, 2024.

Significant subsequent events

(Impact of fire at the Company's Naruto Factory)

A fire accident occurred at the Naruto Factory on October 7, 2024, causing damage to a part of the buildings and manufacturing equipment. The cause of the fire is under investigation by the relevant authorities, and the Company plans to identify the causes and take appropriate measures.

The impact of the fire on the Company's financial results is currently under investigation.
